Fund Objective and Strategy

The investment objective of the Fund is predominantly to generate a relatively high level of current income, together with income growth and some capital growth over the long term, which is superior to the median performance of all of the funds forming the official peer group of which the Fund is a part. 'Peer group' is defined as being the Investment Association sector to which the Fund has been allocated (currently being the UK Equity Income Sector) or to which it may be allocated in future, as determined by that body. Long term means over a minimum investment horizon of five years. The fund adopts a unique investment process designed to consider factors beyond traditional business and financial criteria, as outlined in the fund's name:

B	Business & financial	S	Social
E	Environmental & ecological	T	Transparency & governance

The fund uses detailed filters across key areas of concern to decide which stocks and sectors are excluded from investment. We then use the B.E.S.T criteria to help find positive themes to support. The remaining names are assessed to select a portfolio capable of generating an appropriate level of income.

Further information on the 'B.E.S.T' criteria and sustainability element may be obtained from the Investment Adviser upon request.
