## Fund Objective and Strategy

The Fund aims to generate a positive annualised real return over a rolling 3 year basis. However, there is no guarantee that this objective will be achieved over that specific, or any, period and there is always a risk of loss to your original capital. Real return means a return over UK CPI over a rolling 3 year time horizon. In aiming to produce positive capital returns, whilst also seeking to control the magnitude of any losses, the Fund will invest in a wide range of asset classes inclusive of structured products, government and corporate bonds, securities, exchange traded funds and more.
