

# Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

## CFP Castlefield B.E.S.T Sustainable Income Fund – General Income Shares

A sub-fund of the CFP Castlefield Funds

General Income Shares, ISIN GB00B13NPH48

Authorised Corporate Director – ConBrio Fund Partners Limited

### Objectives and investment policy

The investment objective of the Fund is predominantly to generate a relatively high level of current income, together with income growth and some capital growth over the long term, which is superior to the median performance of all of the funds forming the official peer group of which the Fund is a part. 'Peer group' is defined as being the Investment Association sector to which the Fund has been allocated (currently being the UK Equity Income Sector) or to which it may be allocated in future, as determined by that body. Long term means over a minimum investment horizon of five years.

This is to be achieved by investing principally in a portfolio of UK equities, although money market instruments, collective investment schemes, deposits, warrants, derivatives (for hedging purposes) and other permitted investments and transactions may also be invested in.

In seeking to achieve the stated investment objective, the Investment Adviser uses a responsible investment research process to identify the universe of securities from which the Fund may invest. The four criteria that need to be evidenced

by each investment are reflected in the name of the Fund where "B.E.S.T" indicates Business & financial, Environmental & ecological, Social and Transparency & governance; however equal weighting may not be given to each element of these criteria when screening potential investments. The Investment Adviser then supplements this research process by selecting only those investments which, by their nature, are considered to be sustainable in order to meet the investment objective. Sustainable activities are considered to be those necessary to ensure the long-term continuity of an activity, system, society or enterprise. Further information on the "B.E.S.T" criteria and the sustainability element may be obtained from the Investment Adviser upon request.

Holders can buy, sell and switch shares in the Fund on any UK business day. Instruction must be received before 12 noon to buy shares at that day's price.

Any dividend income from the Fund is distributed on a Quarterly basis.

### Risk and Reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The coloured area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Typically lower rewards Lower Risk				Typically higher rewards Higher Risk		
1	2	3	4	5	6	7

The Fund is ranked as a **5** because it has experienced relatively medium to high rises and falls in value historically. The risk number shown is not guaranteed and may change over time.

Please note that even the lowest ranking does not mean a risk-free investment.

**The indicator may not take fully into account the following risks of investing in this fund:**

- The Fund holds equities concentrated by location in the UK. Equities, as an asset class, tend to experience higher

volatility than many other asset types such as bonds or money market instruments. Funds concentrated in one geographic location are more vulnerable to market sentiment in that specific location and can carry a higher risk than funds holding more diversified assets.

- The level of targeted income is not guaranteed and may not be achieved.

**Liquidity risk:** during difficult market conditions some securities, such as structured investments, corporate bonds and positions in emerging markets, may become more difficult to sell at a desired price.

**Counterparty risk:** arising from securities which require a specific entity, usually a large bank, to honour its obligations to the fund.

**Operational risk:** arising from investments in overseas markets, in particular emerging market countries, which may not have the same level of safekeeping and other controls as UK markets.

**Legal or tax risk:** arising from a change in legal regulations, tax rules or the application of them.

## Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

### One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial advisor about this.

### Charges taken from the Fund over a year

Ongoing charges	1.23%
-----------------	-------

### Charges taken from the Fund under specific conditions

Performance fee	None
-----------------	------

The ongoing charges figure is based on the last year's expenses and may vary from year to year. It excludes the costs of buying or selling assets for the Fund (unless these assets are shares of another fund).

For more information about charges, please refer to the Fund's prospectus.

For the Ongoing Charge, the figure was calculated as at 31/08/2021.

The fund is subject to the ACD's Dilution Levy Policy.
