

CFP Castlefield Sustainable Portfolio Income Fund

FACTSHEET - 30 NOVEMBER 2023

INVESTMENT AIM:

To provide income, with a minimum income return of 3% per annum, and also to provide capital growth over a period in excess of five years through a portfolio where more than 50% of the Fund is invested in collective investment schemes with exposure to both UK and non-UK equities and fixed income securities using the B.E.S.T proprietary responsible investment approach. To embed proper consideration of environmental, social and governance (ESG) factors as part of the investment selection process, to ensure that each investment is sustainable.

For more information about the fund's detailed investment objective and policy, please view the Key Investment Information Document available on the ConBrio website [fund literature page](#).

WHY INVEST?

We offer values-based investing from the perspective of being a values based manager. This includes active engagement and stewardship of each investee company on performance and environmental, social and governance (ESG) considerations - aligned to our own values. That's why we're known as 'the thoughtful investor'.

Tool of diversification: 'One stop shop' with access to diversified portfolio of multiple asset classes.

Fundamental Research: Identification of best proponents of ESG Funds aligned with our values of investing.

Integrated Responsible Investment Process: Consideration of non-financial ESG factors alongside traditional financial analysis within the selection of suitable investments and other mutual funds.

Focus on Sustainable Businesses: Predominantly investing within funds aligned with our values.

RISK WARNINGS

The CFP Castlefield Sustainable Portfolio Income Fund invests in different asset classes in seeking to achieve its objective, this exposes investors to the below risks;

Credit risk: A decline in the financial health of an issuer could cause the value of its bonds to fall or become worthless.

Interest rate risk: A rise in interest rates generally causes bond prices to fall.

Liquidity risk: during difficult market conditions some securities, such as structured investments, corporate bonds and positions in emerging markets, may become more difficult to sell at a desired price.

Shares in all Funds should generally be regarded as long term investments. For more information regarding the risks associated with investing in a fund please see the Prospectus.
