

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

CFP Castlefield Sustainable European Fund – G Income Shares

A sub-fund of the CFP Castlefield Funds

G Income Shares, ISIN GB00BF4VR355

Authorised Corporate Director – ConBrio Fund Partners Limited

Objectives and investment policy

The investment objective of the Fund is to seek to achieve long term capital growth, which is superior to the median performance of all of the funds forming the official peer group of which the Fund is a part. 'Peer group' is defined as being the Investment Association sector to which the Fund has been allocated (currently being the Europe Excluding UK Sector) or to which it may be allocated in future, as determined by that body. Long term means over rolling five year periods.

The Fund will invest at least 80% in a concentrated portfolio of the shares of companies incorporated in European countries which the Investment Adviser considers to offer opportunities for capital growth. The Fund may also invest in money market instruments, units and/or shares in other collective investment schemes, deposits, warrants, cash and near cash.

In seeking to achieve the stated investment objective, the Investment Adviser uses a responsible investment research process, referred to as 'B.E.S.T.', to identify the universe of securities from which the Fund may invest. The four criteria that need to be evidenced by each investment where 'B.E.S.T.' which indicates Business & financial, Environmental & ecological, Social and Transparency & governance; however equal weighting may not be given to each element of these criteria when screening potential investments. The Investment Adviser then supplements this research process by selecting only those investments which, by their nature, are considered to be sustainable in order to meet the investment objective. Sustainable activities are considered to be those necessary to ensure the long-term continuity of an activity, system, society or enterprise. Further information on the 'B.E.S.T.' criteria and the sustainability element may be obtained from the Investment Adviser upon request.

The Fund may invest in shares or units of collective investment

schemes which are managed or operated by the ACD or an associate of the ACD. When investing in collective investment schemes, some of the underlying investments of that collective investment scheme may not meet all four elements of the 'B.E.S.T.' criteria.

Holders can buy, sell and switch shares in the Fund on any UK business day. Instruction must be received before 12 noon to buy shares at that day's price.

Any dividend income from the Fund is distributed on a half-yearly basis.

Derivatives may be used by each of the Funds for investment purposes and for the purpose of efficient portfolio management (including hedging). However, it is not envisaged that the Investment Adviser will employ these instruments. Investors will be given 60 days' notice prior to the Fund using derivatives for investment purposes.

Benchmark

For the purpose of providing comparable indicative returns only, investors should refer to the IA European (ex-UK) Sector ("Comparator Benchmark").

The Comparator Benchmark has been chosen by the ACD as it reflects the composition of the Fund and its bias towards investment in UK equities of smaller companies with a primary objective of achieving capital growth.

The Comparator Benchmark does not represent, or act as, a constraint in the selection of individual investments in the Fund or the management of the Fund's portfolio.

The performance of the Fund may deviate materially from the performance of the Comparator Benchmark.

Risk and Reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The coloured area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Typically lower rewards Lower Risk			Typically higher rewards Higher Risk			
1	2	3	4	5	6	7

The Fund is ranked as a 6 because it has experienced relatively high rises and falls in value historically. The risk number shown is not guaranteed and may change over time.

The lowest risk number does not mean risk-free investment.

As there is less than five years of available data for this Fund, for illustrative purposes a portfolio with a comparable asset allocation has been used to calculate the risk/reward profile where data for this Fund is not available.

The investments of the Company are subject to normal market

fluctuations and other risks inherent in investing in securities. Consequently, the value of Shares in all Funds and the income derived from them can go down as well as up and as a result an investor may not get back the amount originally invested. The Fund will invest in assets denominated in currencies other than GBP, subsequently fluctuations in exchange rates may affect the value of investments.

Liquidity risk: during difficult market conditions some securities, such as structured investments, corporate bonds and positions in emerging markets, may become more difficult to sell at a desired price.

Counterparty risk: arising from securities which require a specific entity, usually a large bank, to honour its obligations to the Fund.

Operational risk: arising from investments in overseas markets, in particular emerging market countries, which may not have the same level of safekeeping and other controls as UK markets.

Legal or tax risk: arising from a change in legal regulations, tax rules or the application of them.

Currency risk: The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	0.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial advisor about this.

Charges taken from the Fund over a year	
Ongoing charges	1.02%

Charges taken from the Fund under specific conditions	
Performance fee	None

The ongoing charges figure is based on the last year's expenses and may vary from year to year. It excludes the costs of buying or selling assets for the Fund (unless these assets are shares of another fund).

For more information about charges, please refer to the Fund's prospectus.

Ongoing charge figure calculated 01/07/2022.

The Fund is subject to the ACD's Dilution Levy Policy.

Past performance

Source: FE fundinfo 2023

You should be aware that past performance is not a guide to future performance.

IA Sector: IA Europe Excluding UK

Fund launch date: 01/11/2017.

Share/unit class launch date: 01/11/2017.

Performance is calculated in GBP.

Performance is net of tax and charges.
